## Take a break from the everyday at the best restaurants Arlington has to offer

For years, UTA students have longed for more dining choices on and around campus. Well, now that wish has become a reality. From long-standing favorites, such as J. Gilligan's Bar & Grill to newly minted restaurants whose staff are yearning for droves of students, faculty and staff to rush through their doors, Arlington has hundreds – even thousands – of options to please even the most discerning culinary connoisseurs, regardless of budget.

The best of those might even be within walking distance of you, and judging by just how light the foot traffic is, you may not even know it. Spaniolo Drive, on the northeast side of campus adjacent to the UTA Bookstore, is one such example. It's home to three restaurants currently – Pie Five Pizza Company, Texadelphia, and Coolberry UTA Frozen Yogurt. Did you know you could get a made-to-order pizza, topped at an ingredient bar right in front of you, in just five minutes, or that you could experience a unique blend of Philly's favorite cheesesteak with a Texas twist? Have you ever tried Boba Tea? The friendly staff at Coolberry, an everything-under-the-sun establishment disguised as a simple yogurt bar would love to watch your expression as you try this Asian delight. All three restaurants offer

ample seating, indoors and out, as well as wifi to inform your friends and family of what they're missing out on.

UTA Training Specialist Vanden Thong discovered the strip while on a quick jaunt to the bookstore.

"They have so many different things to choose from," she said of Coolberry, adding that she loves to dine in Arlington, in general. "There are a variety of food options

also located on Spaniolo Drive, is stocking up and preparing to open its doors to patrons early this summer.

Less than a mile away, J. Gilligan's Bar & Grill has befriended many a UTA student. It's the Cheers of UTA, a place where they really do get to know your name, according to university studies senior Jesse Eerie, who has been loyal to the bar since 2011.

The Grease Monkey, less than a mile from campus, transforms at night. Windows inside the restaurant lift up to create a unique indoor/outdoor dining experience.

from new, delicious ethnic cuisines to warm, comforting American dishes."

"The staff is amazing, the food's great, and you have lots of old-school types who've been coming here for 20 years," he said. "It's a great place to meet people."
